**DIRECTIONS TO THE CLINIC TRAVELLING FROM THE EAST OF
SHERBORNE**

Take the A30 to Sherborne and continue to the traffic lights on the western edge of town just before the start of the dual carriageway to Yeovil. The Sherborne hotel is ahead on the left hand far corner.

Turn left here and then after a couple of hundred yards, turn right into Bradford Road. This is a residential road with large houses on either side. Continue into the countryside past farm buildings and after about a mile from Sherborne you will come to a left fork signed to Bradford Abbas, Stoford.

Take this turning and the road slopes downward, over a railway line and towards Bradford Abbas. Do not bear to the right into Bradford Abbas, but continue downwards, including through a section which is overhung with trees and quite dark and then over a bridge and past a flood measure post.

Take the next right turn, and continue for two or three miles including underneath a railway bridge through Clifton Maybank and eventually a very narrow road bridge followed by a T junction. This is Stoford.

Turn left and continue through the village with the green on the right and the pub on the left, winding on to another T junction this time with the A37.

Turn left and continue for about 2 miles looking out for the Dorset boundary sign on the left hand verge and then the road rises, levels off and then you will see a very large green road sign entitled 'Princes Place'. It indicates a right turn to Holt Mill. Take this, with white house on the corner, and continue for a few hundred yards along the country lane and the Higher Barn buildings are on the left hand side. Turn into the car park and The Melbury Clinic is the large, old barn building - the first building on the left through the entrance way.

We look forward to seeing you.
