DIRECTIONS TO THE MELBURY CLINIC FROM THE WEST ON THE A303

This takes a route around Yeovil rather than through the town

Take the A303 and continue, travelling east past the South Petherton and Martock exits, to the Cartgate roundabout. There is a lorry park on the left.

Turn RIGHT towards Yeovil/Montacute. A3088
Do not turn off to Montacute but continue to Yeovil to the next roundabout which is in front of Westlands airfield.

Turn right here (or the third exit off roundabout)
Continue to next roundabout

Turn right here (or third exit off roundabout)
Climb up a hill with residential area on the left to another roundabout.

Turn left here towards Yeovil (or first exit off roundabout) This is the A30
Yeovil/Crewkerne road. Residential area - continue to next roundabout. Quicksilver Mail pub on the left hand side at roundabout

Turn right here (or second exit off roundabout)
You are now on the A37 Dorchester road.
Continue, including straight on at next roundabout, for five miles.
At about 4.5 miles look out for the Dorset county boundary sign on the left hand verge. The road then climbs and when it levels off there is a large green road sign with a direction to Holt Mill to the right.

Take this right turn off the A37. There is a small garden centre on the corner named The Potting Shed.

This is a country lane - drive about 300 yards and on the left is a car park and cluster of small buildings. You will find The Melbury Clinic well marked in the old barn

I hope this is helpful. Best wishes

Ros English - Clinic Manager
